Blush - loose powder

Ingredients

Phase	%w/w input	Ingredient
A	82.49	Mica - plain/not shimmer
A	5.00	Kaolin powder
A	3.50	Magnesium stearate
B	3.00	Titanium dioxide
B	2.00	Iron oxide red (russet)
C	1.00	Caprylic/Capric Triglycerides (Myritol 318)
C	0.01	Tocopherols - mixed
D	3.00	Mica pearl white

Method

1. Combine ingredients in phase A.
2. Grind pigments in phase B separately first. Add to phase A and stir through until homogenous colour mixture forms.

Pink Blush

3. Combine ingredients in phase C. In very small batches, drip over powder base and stir through until evenly dispersed. In larger batches, spray onto oil phase as it is being mixed in a ribbon blender. Make sure mixture is homogenous in colour and oil phase before continuing.

4. Add phase D and stir through until evenly dispersed. Allow product to settle before dispensing into finished packaging.

Disclaimer: This formula and method has been developed based on the theoretical selection of listed ingredients; all costs associated with producing a sample of this product is the user's responsibility including any reworks or fails. IPCS recommends a 100g lab scale sample be made and pilot production prior to full scale production.

Please refer to supplier Safety Data Sheets (SDS/MSDS) to ensure safe handling of all raw materials. IPCS holds no responsibility for inappropriate use of materials selected, the formulation or method, in part or as a whole.

It is a condition of use of this formula and method that the user holds full responsibility for ensuring safe and correct use and storage of any materials they source and use, as well as ensuring compliance with local regulations and 'clean product preparation' steps are followed when producing samples, especially for use by others. Evaluations of the safety, stability and suitability of this formula, method and finished product are the sole responsibility of the user.

The information provided on this site is of a theoretical and general nature and does not represent brand or product specific advice. IPCS shall not be responsible for any damages resulting from use of or reliance on this information.

INCI names provided on this site are used as a guide to assist with selections and product descriptions. Users will need to source and check full material information from their suppliers and prepare compliant ingredient lists specific to the materials they actually use.
