

Micellar water

Ingredients

Phase	%w/w input	Ingredient
A	76.90	Water
A	10.00	Lavender hydrosol
A	5.00	Glycerin
A	1.00	Arnica extract - glycerin
A	1.00	Totara extract - glycerin
B	5.00	Polyglyceryl-4 laurate/sebacate, Polyglyceryl-6 caprylate/caprates, aqua (Natragem S140 NP)
B	1.10	Dehydroacetic acid, benzyl alcohol (Geogard 221)
	q.s.	pH Adjuster

Method

1. Combine ingredients in phase A under low shear until homogenously mixed.
2. Combine ingredients in phase B under low shear until homogenously mixed.
3. Add phase B to phase A slowly, under low shear, until homogenously mixed.
4. Check/adjust pH to 5 - 5.5
